

New Southern Sky September Roadshow

The New Southern Sky (NSS) 'team' including CAA, Airways, NZ Airports and other members of the NSS Working Group are travelling around New Zealand in September to present an update on the NSS programme. If you fly in, or plan to fly in, controlled airspace, this will interest you!

With a focus on programme benefits, these sessions will be of particular interest to Flight Training Organisations, smaller RPT operators, Rescue & Air Ambulance services, IFR Helicopter operators, aviation engineering firms, and recreational fliers.

The NSS Team will:

- Brief you on the benefits of the programme
- Outline what's involved in the current stages of the programme
- Inform you of proposed mandates for ADS-B
- Give you an opportunity to get information directly from the NSS team about impacts of the programme on the part of the aviation sector that you are involved in

When:	Auckland	20 th September
	Waikato	21 st September
	Palmerston North	22 nd September
	Nelson	27 th September
	Christchurch	28 th September
	Invercargill	29 th September
	Queenstown	30 th September
