

## 2019 ServiceIQ Gateway Flying NZ Flight Training Scholarship

### What is the ServiceIQ Gateway Programme?

---

ServiceIQ is the industry training organisation (ITO) for the aviation sector. Through its Gateway Programme secondary school students are introduced to a wide range of industry roles for men and women which include pilot, aeronautical engineer, flight attendant, air traffic controller, check-in agent, cargo handling supervisor, airport operation staff and many more. The Aviation Gateway programme allows students who are considering an aviation career to get a feel for what it's like to fly an aircraft and offers great insights into other roles in the exciting aviation industry. If the passion is to be a pilot, this first-time flying experience helps students gain acceptance into full-time flight training when they leave school.
