

# FLYING NZ AERO CLUB SAFETY AWARD 2022

---

The 2022 Flying NZ Aero Club Safety Award is presented at the 2022 Flying NZ Conference Presentation dinner. This is awarded annually to an Aero Club that can successfully manage risk through their safety program and/or have introduced an innovative safety initiative into their Safety Program.

Safety is an important part of club culture and therefore it can become the clubs cheapest form of insurance. This can be born out of the following quote "If you think safety is expensive, try having an accident."

## **DOES YOUR CLUB HAVE AN ACITIVE AVIATION SAFETY PROGRAM?**

The following should be included in your Aero Club Aviation Safety Program

- A Safety Officer or Committee
- Creating a Constructive Club Safety Culture
- Availability of the Safety Program and Information to Aero Club Members and Staff
- Emergency Response Plan
- Safety awareness around aircraft
- Identification of Risks, Hazards and mitigating the risk
- Documented Risk and Hazard register
- Investigation of incidents and accidents
- Self Audit and evaluation
- Availability to Flight planning and Weather services
- Safety awareness, training and education for example- Pilot Evenings, AvKiwi Safety Seminars, CAA Publications and Airways Information
- Regulatory requirements

Implementation by the Aero Clubs of a structured aviation Safety program is an effective way for Aero Clubs to successfully manage and control the safety of the Aero Club activities and reduce the risk of accidents and incidents.

If your Aero Club has introduced some new initiatives over the year for safety and managing risk in your Club and /or have improved the safety culture within the club and /or have maintained your Aviation Safety program successfully then please send your Nomination outlining your Clubs commitment to safety to \*Executive Secretary of Flying NZ.

**\*Close Off Date is Sunday 6<sup>th</sup> June 2022**

**Please send the nomination to:**

Executive Secretary – Lisa Macdonald
